WD-8

– flexible, reliable
and extra large!

Wexiödisk

The dishwasher with room for a little more

The WD-8 is a robust and reliable combi-dishwasher designed especially for washing baking trays, thermos boxes/transport containers and canteens. The WD-8 is a further development of Wexiödisk's popular WD-6 and WD-7 dishwashers. Our new dishwasher retains the same good quality and functionality as the older machines and suits both small and medium-sized kitchens. With its high-quality components, the WD-8 offers great reliability while its stainless steel construction makes for a sturdy and durable build.

A FLEXIBLE WORKHORSE

The WD-8 saves you both water and time, as there's no need to wash large bowls and canteens by hand. Boasting a large capacity washing compartment with a width of 695 millimetres and a height of 505 millimetres, this machine is specially designed for dishwashing larger items, but can also be used for glassware and cutlery as you can easily adjust the water pressure. This makes

the WD-8 a highly flexible combi-dishwasher that can be used for both normal dishwashing and potwashing.

SMART OPTIONS

If you choose to add the foldable shelf option, you'll gain a flexible machine that can wash several baking trays at the same time. Another useful option is the automatic hood lift with no need to manually raise the hood after each wash – your shoulders will thank you for it! The ECO-FLOW option uses the energy from the steam to heat the water for the next wash, which both saves energy and minimises the amount of steam in the washing room.

HIGH-QUALITY SWEDISH DESIGN

A good working environment, high levels of hygiene, easy servicing and optimum wash results make the WD-8 one of the best-equipped dishwashers on the market in its sector.

You can rely on the WD-8 every day of the year.

The combi-dishwasher WD-8 handles larger cooking utensils such as bakery trays, pots and pans by using the foldable shelf.

Thermos boxes, GN 1/1-canteens and washing baskets (500 x 500 or 500 x 600 mm) are placed directly into the machine without using the shelf. The water pressure is easy to adjust!

ECO-FLOW HEAT RECOVERY SAVES ENERGY AND HELPS WASHED ITEMS TO DRY QUICKLY

THE HOOD OPENS AND CLOSSES AUTOMATICALLY (OPTION), ELIMINATING THE RISK OF STRAIN INJURIES

BETTER WORKING ENVIRONMENT WHEN THE HOOD IS ANGLED UPWARDS AT THE BACK SO THAT THE STEAM DISCHARGES AT THE BACK OF THE MACHINE RATHER THAN OUT INTO THE ROOM

EXTRA LARGE WASHING COMPARTMENT MEASURING A FULL 695 MM IN WIDTH

ADD THE FOLDABLE SHELF AND YOU CAN EVEN WASH BAKING TRAYS AND OTHER BULKY ITEMS

HIGH LEVELS OF HYGIENE WITH AN AUTOMATIC CLEANING PROGRAMME

EASY SERVICING – THE MACHINE CAN BE SERVICED FROM THE FRONT
